

Four years ago the Somerville Police Department and Lieutenant Connors have had a wireless microwave surveillance defense weapon on me wherever I went. They have been spying on me and ruining my life. Two years later a Hanscom Air Force Base technician did his job of removing the machines and stayed there another 2 years. The FBI came and took 1.5 months to remove the machines and the last team out 4 finally did their job. I wish to obtain the FBI report and sue the Somerville Police Department. It affects large numbers of people, which I do not want to reveal.
